Academic Performance Level Descriptors for Puerto Rico
English
Fifth Grade

Puerto Rico’s alternate assessment tool is based on the content in the *Content Standards and Expectations by Grade* (PRCS 2014) but designed to measure alternate achievement of the PRCS. It is created for students with a significant cognitive disability that does not allow them to participate in the general assessment even if they receive the maximum allowed reasonable accommodation, and who meet eligibility criteria for participation in alternate assessment.

The four levels of academic performance that follow, generally describe a student comprehension of the knowledge and skills identified as descriptors that align with the PRCS.
